Issue Status Distribution of Assets by Date Fields

This gadget displays assets related issues grouped by issue status field, according to any specified date field within issue.

Click **Add Gadget** button in your favourite dashboard and type AIP in search bar to filter Assets and Inventory Plugin gadgets.

Scroll down to **AIP Report - Issue Status Distribution of Assets by Date Fields** and click **Add gadget** button.

As seen in the picture below, assets are grouped by their related issues’ statuses and created dates (updated or resolution dates).
